BAJA 5R ON-ROAD

MASSIVE GRIPPY ON-ROAD WHEELS AND TIRES

TAKING THE BAJA TO THE STREET!

The Baja 5R On-Road takes the HPI Baja concept to new heights! With a custom lowered suspension designed purely for on-road action, the Baja 5R is the perfect way to enjoy large-scale fun while burning up the pavement! The iconic 1970 Ford Mustang Boss 302 is the perfect fit for the rear-wheel drive Baja 5R, and the vintage 8-spoke wheels and Tarmac Buster tires complete the awesome muscle car look! The Baja 5R is equipped with a Fuelie 23C 2-stroke engine and 700cc fuel tank within a thick monocoque aluminum chassis, plus a steel disc brake, waterproof servos and 2.4GHz radio system.

SIDEWINDER X5

DUNE BUGGY LOOKS ON THE BAJA 5B!

HPI Racing and HPI Baja aftermarket specialists Kraken RC have joined forces to provide large scale enthusiasts with a fully built and painted Baja 5B fitted with Kraken RC roll cages straight from the factory! For fans of the classic dune buggy, the modern equivalent is the awesome 'sand rail', a tube frame buggy that takes no prisoners when blasting up and over massive sand dunes! The Kraken RC Sidewinder X5 conversion adds a fully functional roll cage and body panels to the Baja 5B chassis, transforming it into a scale replica of the latest generation of desert play vehicles.

Baja 5B

TSK-b CLASS 1

PURE DESERT RACING ACTION WITH THE BAJA 5B!

HPI and Kraken RC have teamed up to provide an awesome 'Class 1' racing style Baja 5B: the Kraken RC TSK-b Class 1 conversion! This is another transformation that turns the Baja 5B into a perfect scale replica of the newest generation of desert racing vehicles, just like the ones that compete in hardcore endurance races like the Baja 1000 in the unlimited 'Class 1' specification. The Kraken RC TSK-b Class 1 conversion adds a tough full roll cage made of polymer plastic plus realistic body panels to turn the Baja 5B into an awesome racing buggy!

NEW LOOK FOR 2016!

#112609 Savage XL Flux 2.4Ghz

NEW FOR 2016!

SAVAGE X 4.6

SAVAGE OPTION PARTS

SAVAGE XL FLUX

GIANT SAVAGE LiPo POWER!

The Savage XL Flux is the BIGGEST electric truck in the HPI line-up! This massive beast is longer and wider than a standard Savage monster truck, takes twin battery packs for up to 6S power and features a massive brushless motor for awesome power and extreme speed!

SAVAGE XL OCTANE

REVOLUTIONARY GAS POWERED MONSTER TRUCK!

This truck is powered by a 15cc gasoline 2-stroke engine, making it unique not just among monster trucks but in the entire RC world! With its huge engine, 3-speed transmission, XL-size, driving times of 20 minutes and almost complete parts compatibility with the rest of the Savage 1/8th scale line-up, the Savage XL Octane is the King of the Monster Trucks!

2.7hp 15cc 2-stroke

#109073 Savage XL Octane RTR 15cc Gasoline-Powered Monster Truck

THE CLASSIC SAVAGE!

If you're looking for a super-fast, extra-acrobatic, stunt-ready monster truck, the Savage X 4.6 should be right up your street. The F4.6 engine puts out nearly 3 horsepower, giving this monster blinding acceleration for instant wheelie action, and the 2-speed transmission allows it to really stretch its legs wherever you can find room! Over a decade of refinement has led to this being the toughest nitro-powered Savage, so you can pull off big-air stunts whenever you like, over and over!

#4878 - SUPER MUDDERS TIRE (165 x 88mm/ 2pcs)

SAVAGE XL

EXTRA LARGE SAVAGE!

If nitro is your game and you want big, bold and brash, the Savage XL is the one for you! With the colossally huge K5.9 engine, it's fast, loud and powerful, rumbling over obstacles that will stop nearly any other truck. Waterproof electronics and extra-strong servos, along with the 2.4GHz electronics featured in all the other Savage monster trucks, help ensure it keeps running...and running...and running!

FORD SVT RAPTOR

THE WORLD'S FASTEST MINI-MONSTER TRUCK WITH A NEW LOOK!

Taking the Ford SVT Raptor and scaling it down without taking away its awesome performance isn't easy, but HPI have done it again with the amazing Savage XS Flux mini monster truck! With easy wheelies, backflips and 65+ mph speeds, the Savage XS is compact and full of fun! Full-time shaft-drive 4WD is the perfect way to get the power to the all-terrain wheels, while oil-filled long-stroke shocks absorb huge landings to let you keep coming back for more!

#115125 - Savage XS Flux RTR w/ Ford Raptor body

BL3CK

INTERGALACTIC HOONING

Our latest Ken Block replicas feature the amazing "Intergalactic" design from his 2015 Gymkhana GRiD competition Ford Fiesta ST RX43, letting you replicate Ken's awesome driving skills on a scale course of your own!

What is Gymkhana GRiD? It's a combination of autocross and drifting skills where drivers compete on a timed course using the speed and power of their car combined with extreme handling sections including slaloms and drifts. Drivers race head-to-head against another racer on a mirror-image course, with single eliminations knocking out drivers one by one until it's a single race for the glory!

With these amazing HPI replica cars, you can compete against your friends in 1/18th scale and 1/8th scale!

THE NEW 2WD TRUCK PLATFORM FROM HPI!

For a fun and exciting 2WD monster truck, the new Jumpshot MT takes off-road fun to new levels! Designed around the durable Savage-style TVP (Twin Vertical Plate) chassis and featuring modular design, robust suspension and direct steering, the Jumpshot MT will let you drive for hours and hours for great big-air fun! The Jumpshot MT is a strong and reliable monster truck with a protected radio box, bottom-access battery box and huge all-terrain tires so you can get outside and have tons of fun!

#115116 - Jumpshot MT RTR w/2.4GHz

JUMPSHOT SC : SUPERCOOL SHORT COURSE ACTION!

The new Jumpshot SC is designed to look and perform just like a real rear-wheel drive short course racing truck. The center-balanced weight of the chassis means that driving and jumping is easy, and the wide closed-wheel look, combined with the multi-hole wheels and treaded off-road tires make it look awesome! With double-wishbone suspension, Savage-style TVP chassis and modular design, the Jumpshot is super tough and ready for off-road action!

#116103 - Jumpshot SC RTR w/2.4GHz

FANTASTIC STADIUM TRUCK FUN WITH THE JUMPSHOT ST!

If you're looking for a classic RC stadium truck, the new Jumpshot ST is the ideal choice for you! With its narrow body and extra-wide stance enhanced by the large off-road tires, the Jumpshot ST definitely looks the part and the Savage-style TVP chassis and center-balanced weight make sure it performs great too! With oil-filled shocks, double-wishbone suspension and RWD drivetrain, the action is fast and fun with the Jumpshot ST!

TROPHY 4.6 TRUGGY

FULLY FEATURED TRUGGY RACER

Whether you want to race, rock out big-time stunts or just have a bit of fun, the Trophy Truggy is the ideal RC companion for those who like their action bigger, wider and wilder than the usual buggies you might find at your local RC area. Extra-wide suspension and super long shocks give the tall truggy tires the grip, with the help of full-time 4WD and triple gear differentials powered by either a 4.6cc nitro engine or an insane Flux 1965KV brushless motor to reach unbelievable speeds!

BULLET FLUX WATERPROOF

BLAST AWAY WITH WATERPROOF HPI FLUX POWER!

The Bullet MT has the looks of a rugged monster truck, and underneath it's just as tough and versatile as the Bullet ST! Just like its brother, it features tough gear diffs, big off-road tires on cool chrome wheels, 2 shocks on every corner and 4WD for traction anywhere you take it. It's also available with the HPI Flux 4000KV motor or the 2.2 horsepower Nitro Star G3.0 engine, so you can take your pick of power source!

THE ICON IS BACK!

The RS4 Sport 3 is the all-new touring car chassis from HPI Racing! In development and refined for over a year, the RS4 Sport 3 features a completely sealed and highly efficient shaft drivetrain, coilover shock absorbers plus waterproof electronics. The fully contained drivetrain means there are no exposed gears, belts or drivetrain parts to get stuck with rocks or dirt. Finally, the RS4 Sport 3 is finished with realistic tires plus a licensed replica body and wheels for an authentic look that will grab the attention of all RC and motorsport enthusiasts!

CUSTOMIZE YOUR LOOK

A huge variety of option bodies, wheels and tires from HPI lets you fully customize the style of your RS4 Sport 3 to suit your style.

RS4 SPORT 3

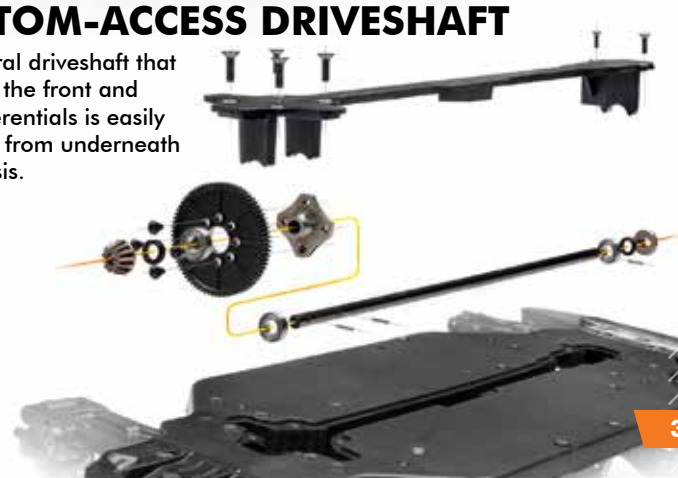

EASY ACCESS DIFFERENTIALS

Getting to the differentials for quick adjustments is a matter of removing just 4 screws - this allows you to pop out the diff and change the grease, check the gears or just give it a general service.

BOTTOM-ACCESS DRIVESHAFT

The central driveshaft that connects the front and rear differentials is easily accessed from underneath the chassis.

RS4 SPORT 3

MONSTER ENERGY NITTO TIRE FORD MUSTANG RTR

VGJR FORMULA DRIFT 2016

Available on the new RS4 Sport 3 chassis, the awesome Monster Energy Nitto Tire Ford Mustang RTR driven by Vaughn in the Formula Drift is definitely the coolest pony car on the pro drift circuit! There's no other way to get a replica of this amazing car, and it's fitted with matching replica wheels and tires to give it the authentic pro look!

#115984 RS4 Sport 3 RTR Monster / Nitto Mustang RTR Spec 5

RTR-X

ONE OF A KIND!

The RTR-X project is a fully-functional Street/Drift machine. Balancing 5.0 liters of tire-slaying American horsepower with vintage American and drift-culture inspired design influences, Vaughn and his team incorporated state-of-the-art technology while retaining a nostalgic feel into this vision for the 69' Mustang's timeless body. The RTR-X was designed and built from the ground up to be driven hard; the RTR-X is NOT a trailer queen.

Vaughn Gittin Jr, the brains behind the RTR-X, is the only one who can actually sit in the car to drive it for real, however YOU can drive away in the RTR-X simply by getting yourself an officially licensed nitro or electric-powered replica!

CONNECT WITH HPI AND WIN BIG!

When you share your enthusiasm for your HPI kit, you can win big! All you have to do is share a video of yourself showing off your HPI kit and say "This is MY hpi!" – tag the video with #myhpi then email the video link to win@hpiracing.com to make sure we see it! For details of the contest rules as well as terms and conditions, please see hpiracing.com/win

MEET OUR FACTORY TEAM DRIVERS

SWEDISH 1/8TH OFF-ROAD NATIONAL CHAMPIONSHIP

KEEP UP TO DATE WITH THE HB TEAM

INTRODUCTION TO HB-HPI RACING

HB is the racing arm of HPI Racing: a small yet perfectly-sized team of dedicated racers, designers and mechanics with an amazing depth of talent with one goal: to achieve race wins. The factory team is made up a core of less than a dozen factory racers across all disciplines – nitro, electric, on-road and off-road – and consists of multiple World, European and ROAR champions, plus highly talented up-and-coming racers. The factory team then passes their knowledge to our highly motivated regional and local HB racers across the globe, giving us the large and growing HB Infantry.

This versatility and deep talent gives Team HB the flexibility to take wins and trophies around the world, and the race-winning design makes it into every HB and HPI kit.

ROAD TO BECOMING WORLD CHAMPION

2014: TY BECAME WORLD CHAMPION

2012: WORLDS TQ AND FINISHED 2ND PLACE

2010: MADE WORLDS SEMI FINAL

2006: WON HIS FIRST CANADA NATIONALS

2004: SIGNED FOR TEAM HB

WORLD CLASS NITRO 8TH SCALE

The R8 is a fresh new design, aimed at taking on the fastest and most exciting on-road racing class: 1/8th Nitro On-Road! With an extremely low center of gravity, thick aluminum chassis, graphite upper deck and shock towers, centrally-mounted components and more smart design throughout, the HB R8 is the car to have when racing with the best.

WORLD-BEATING ELECTRIC TC TECH

The PRO5 is a culmination of the latest trends and developments in electric touring car racing, and is track-tested, rebuilt and dialled in week after week at race tracks around the world. Team HB has put in thousands of hours to make the HB PRO5 the best available touring car you can get today.

#114500 HB PRO5

*Bodyshell, electronics, wheels, tires and radio system required to complete the car.

D413

MEET THE D413 DESIGNER

BACK-TO-BACK NATIONAL CHAMPION

The HB D413 was already a legend before it was released to the public – designed in just under a year by HB Designer Torrance Deguzman and piloted by RC legend Ty Tessmann, the D413 made history by becoming the US National Champion in 2013, then taking another win in 2014! This is the most versatile and durable 4WD buggy you can get today!

#112723 HB D413
*4WD racing buggy kit with no electronics.

TEAM HB AT THE EFRA 1/10 BUGGY EUROS 2015

D216

2WD BUGGY DESIGNED FOR CHAMPIONS

Developed by HB D413 designer Torrance Deguzman with the help of HB team drivers including Ty Tessmann, the D216 represents another bold, fresh step forward for racing buggies. The sturdy character and high adjustability of its 4WD brother carries over to the D216, giving you maximum choice and tuning capability for high and low grip surfaces!

#116115 HB D216
*2WD racing buggy kit with no electronics.

D815

TESSMANN WORLDS EDITION

*Engine, exhaust, electronics, tires, inserts and radio system required to complete the car.

THE WORLD-BEATING NITRO BUGGY

Just to even attend the World Championships is a 2-year long struggle. Running at the top of the field in practice, dominating qualifying and then lapping the entire grid (twice!) in the grueling hour-long Final, held in the shadow of an active volcano...that's something else altogether! The HB D812 made history at the most recent IFMAR World Championships and helped solidify Ty Tessmann at the top of a very short list of "World's Fastest Drivers".

D8T

TESSMANN Edition

D8T TESSMANN Edition Q82 CHECK IT OUT on page 23

THE ULTIMATE TRUGGY DEVELOPED BY THE ULTIMATE RACER

Team Tessmann have been hard at work for the past few years, working next to HB designers to develop the D8T into the Ty Tessmann Edition, packed full of race-winning upgrades, tweaks and adjustments directly from Ty himself! The results? Winning the Pro-Line Dual, 3 consecutive Dirt Nitro Challenge wins and a US National Championship! Loaded with aluminum and carbon fiber, as well as new suspension parts, Pro-Line body and Upgrade R/C wing, the only option part not included is Ty himself!

#113391 HB D8T Ty Tessmann Edition *No electronics, engine, wheels or tires.
