

MICRO RS4

1/18 SCALE 4WD

You can change the cornering traits of your Micro RS4 by selecting different tire compounds.

Refer to the chart below and select tires for the surface or desired handling.

Parking Lot

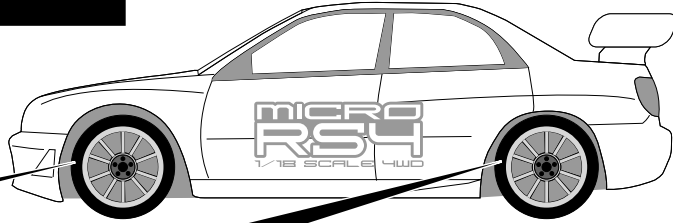

Front **1** FRONT TIRE (MICRO RS4)
4713

Rear **5** REAR TIRE (MICRO RS4)
4718

Use #4716 HIGH PERFORMANCE WIDE TIRE (SOFT/MICRO RS4) for more rear traction on slippery surfaces.

If you need more steering, use #4712 HIGH PERFORMANCE NARROW TIRE (MEDIUM/MICRO RS4) in front.

Permanent race track & indoor

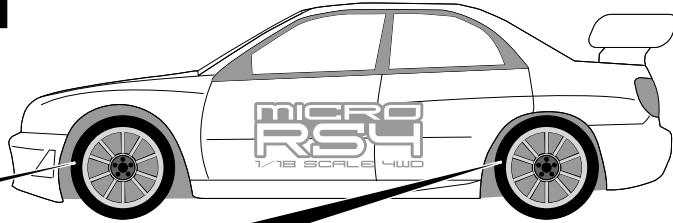

Front **3** HIGH PERFORMANCE NARROW TIRE (MED. HARD)
4711

Rear **6** HIGH PERFORMANCE WIDE TIRE (MED. SOFT)
4717

Use #4713 FRONT TIRE (MICRO RS4) for milder steering.

The car may flip from too much traction if you use #4712.

Carpet & Linoleum

Front **1** FRONT TIRE (MICRO RS4)
4713

Rear **4** HIGH PERFORMANCE WIDE TIRE (CARPET)
4719

#4719 is a special compound rear tire that works great on carpet surfaces, and also on linoleum. Use 100 grit sand paper to roughen the #4719 tire surface. This will improve the grip of new tires.

	Part Number	Description	Quantity
Front	1 4713 *	FRONT TIRE (MICRO RS4)	2
	2 4712	HIGH PERFORMANCE NARROW TIRE (Medium)	2
	3 4711	HIGH PERFORMANCE NARROW TIRE (MED. HARD)	2
Rear	4 4719	HIGH PERFORMANCE WIDE TIRE (CARPET)	2
	5 4718 *	REAR TIRE (MICRO RS4)	2
	6 4717	HIGH PERFORMANCE WIDE TIRE (MED. SOFT)	2
	7 4716	HIGH PERFORMANCE WIDE TIRE (Soft)	2

* Kit Standard Tire
