# D8

## WORLD CHAMPIONS

### RACING REVOLUTION:

HB is dedicated to pure racing excellence and the D8 is the latest installment in a long line of vehicles meant for total domination. Packed to the brim with all the "go fast goodies" you crave.

### 67300 HB-D8 KIT

#### FEATURES:

- **ONE PIECE RADIO TRAY** Simple design keeps the weight centralized and allows for easy maintenance of electronics.
- **OPTIMIZED WEIGHT DISTRIBUTION** Weight has been optimized from front to rear and from side to side making the car extremely balanced and easy to drive.
- **QUICK CHANGE ENGINE MOUNT**
- **FUEL CLUNK** A weighted fuel pick-up allows you to use every drop of fuel, even when you're upside down!
- **BIG BORE SHOCKS** Our huge 16mm shocks have more volume to smooth the overall ride and absorb much bigger impacts.
- **CAPTURED HINGE PINS** No more e-clips
- **EASY ADJUSTABLE BRAKES** Makes fine tuning brake bias as simple as possible.
- **MAXIMUM DIAMETER WHEELS** Wheel diameter has been maximized for the advantage of less rotating mass, less unsprung weight and low profile tire sidewalls.
- **4-3-1 DRIVETRAIN** Allows the use of refined gear ratios for optimized power delivery.
- **4MM 7075 HARD ANODIZED CHASSIS** Narrowed down from our previous design, this chassis is constructed from 4mm 7075 aluminum and has been hard anodized to make it even stronger.
- **LOW SCREW COUNT** Simple, light and effective. Fewer screws equal less work.
- **LOW PROFILE DESIGN** Everything has been thought out to maintain a low profile and a low center of gravity.
- **5X11MM CLUTCH BEARINGS**

#### SPECIFICATIONS:

Length: 19.68in (500mm)  
Width: 12in (305mm)  
Wheel Base: 12.79-12.91in (325-328mm)  
Weight: 3.4kg (7.5lbs) with racing gear
