BUILD IT YOURSELF

### OUTLAW 18SS!

High torque, 1.5 horsepower engine that is easy to tune and maintain. Perfect for "outlaw" class racers. One of the most powerful small block engines available!

NITRO MT 2 18SS+

# BRING ON THE COMPETITION!

The "plus" in the Nitro MT 2 18SS+ means added speed, added handling, and added traction – more performance! Our engineers took the tough and fast Nitro MT 2 18SS truck kit and added a list of upgrades to help you kick even more mud into the face of the competition. Features include an aluminum tuned pipe to get extra snort out of the screaming 18SS engine, machined steel differential gears for extra toughness, sticky S-Compound Ground Assault tires for maximum traction, tough black Scorch wheels for a stealthy look, a free-breathing two stage air filter, Dirt Force off-road body, and an ultra tough 2.5mm gray anodized chassis. The Nitro RS4 MT 2 18SS+ is a high performance kit version, specially designed for R/C enthusiasts who enjoy the process of building their trucks and adding their own radio equipment. Get yours today!

An aluminum tuned pipe and aluminum tube header give stump-pulling torque and scorching top speed!

Sticky S-Compound Ground Assault tires for maximum offroad traction.

Adjustable Steel Turnbuckles. Easy suspension adjustments for maximum performance and handling.
