RTR SPRINT 2 SPORT

CLUB RACER

The Sprint 2 Sport is the perfect club racer and is the ideal entry into RC racing fun! The "out of the box" settings include fully adjustable suspension with control over important settings like camber, caster, toe in, ride height, Ackerman, springs etc. to fine tune your car for faster lap times! A belt driven 4 wheel drive system guarantees smooth power transfer and high grip on a wide variety of paved surfaces delivering excellent handling. Features also include race proven suspension with oil filled shock absorbers, adjustable camber and toe-in links, extra long upper links with new multiple mounting positions, adjustable Ackerman settings, adjustable droop and different caster and toe in blocks included in the kit. The Sprint 2 Sport is a rock solid car for beginners and club racers. The Sport version includes everything you need, just add your own battery pack and charger!
