

We offer a wide range of option parts to maximize the speed and performance of the RTR Sprint 2 and Sprint 2 Drift. Visit our website for a complete list of parts at www.hpiracing.com

WARP
brushless motor

100419 Flux Warp 5700Kv brushless motor
Use with Flux Motiv brushless ESC

- High torque/ high temperature neodymium magnet.
- Oversized precision sealed bearings.
- 2.3mm 1/8" hardened steel shaft.
- Slotless stator design delivers smooth, linear torque.
- Triple insulated windings for long life.
- Highest efficiency motors in class (> 85% efficient).
- Compatible with any Sensorless ESC.

motiv
brushless electronic speed controller

100416 Flux Motiv brushless ESC
Use with FLUX WARP brushless motor

- 6-7 Cell NiMH / NiCd or 2 Cell Lithium Polymer.
- 70A* Continuous / 380A burst current.
- Ultra low resistance (.0007 ohms / phase).
- Sensorless technology eliminates additional sensor wiring and complexity.
- High performance cross-cut aluminum heat sink.
- Smooth startup and run with sensorless motors.

FLUX
brushless system

1151 Flux Brushless System

Includes Warp 5700Kv brushless motor and Motiv ESC.

73829 Main Chassis 2.5mm (WOVEN GRAPHITE)

Woven graphite is stronger, lighter, and more consistent in high and low temperatures. The result is faster lap times and more consistent performance.

73108 Woven Graphite Upper Deck 2.0mm (FOR SADDLE PACK)

Woven Graphite Upper Deck for more precise handling characteristics. This part must be used with saddle pack batteries only, no stick packs.

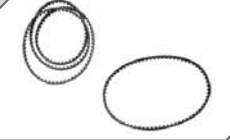

73106 Front Shock Tower (WOVEN GRAPHITE)
73107 Rear Shock Tower (WOVEN GRAPHITE)

For increased durability and more efficient energy transfer to the shocks.

86198 Universal Dogbone 6x70mm (1 PAIR)

For more efficient transfer of power to the wheels for higher speed and smoother suspension movement.

87006 Urethane Belt S3M 507UG (FR)
87007 Urethane Belt S3M 174UG (RR)

Ultra smooth and durable belts for the wheels for higher speed and smoother performance and durability.

86042 Front One-Way Differential

For increased cornering speed and response.

86040 Ball Differential Set

Smother than the stock gear diff set and allows you to easily fine tune your diff settings.

75175 Racing Shock Spring Set

6542	14x25x1.4x6 (blue)	SOFT ↑ ↓ HARD
6543	14x25x1.5x6.5 (silver/kit)	
6544	14x25x1.5x6 (gold/kit)	
6545	14x25x1.5x5.75 (white)	
6546	14x25x1.5x5.5 (yellow)	
6547	14x25x1.5x5.25 (red)	

HPI Racing Titanium Drift Springs are specially tuned for drifting. They're softer than steel springs for more weight transfer. And, the high tech titanium construction is lighter than steel springs and is the latest spring technology that is being used on real drift cars. Get the complete set and be fully equipped for any track conditions!

6555	14x27x1.6mm 7.5 Coils (Orange)
6556	14x27x1.6mm 7 Coils (Yellow)
6557	14x27x1.8mm 9 Coils (Red)
6558	14x27x1.8mm 8.5 Coils (Green)
6559	14x27x1.8mm 8 Coils (Blue)

75194 Competition Aluminum Threaded Shock Set (46-56/2pcs)

Fluorine coated shock body, new smoother o-ring, and new pistons provides extra smooth action for improved suspension performance.

80588 D-Box Adjustable Stability Control System / Drift Assist

Electronic assistance to achieve the perfect drift angle!

Spur Gears (Delrin/64Pitch)

76533	33 tooth	76546	46 tooth
76534	34 tooth	76547	47 tooth
76535	35 tooth	76548	48 tooth
76536	36 tooth	76549	49 tooth
76537	37 tooth	76550	50 tooth

85613 Body Tuner Kit Type A

Add some bling to make your car stand out from the crowd with the HPI Body Tuner Kit. You get a large diameter chrome muffler, a realistic front intercooler, and 3 different kinds of side view mirrors. The radiator and muffler include molded nylon mounts that keep them firmly attached and allow you to adjust the location and angle. Bolt on your choice of 3 different side mirror styles and you're ready for action! This set can be used on most drift cars and touring cars. Mounting hardware is included.
