

We offer a wide range of option parts to maximize the speed and performance of the E10. Visit our website for a complete list of parts at [www.hpiracing.com](http://www.hpiracing.com)

88015 E10 Strut Tower Bar Set

Just like on a real car, the brace stiffens the suspension by eliminating flex at the tops of the shock towers. The result is you get a firmer, more nimble car with a minimum of effort!

88016 E10 Sway Bar Set

For a wide range of suspension tuning settings, you need to add the E10 Sway Bar Set to your ride! Designed to fit the E10 for maximum tuning options.

80588 D-Box Adjustable Stability Control System / Drift Assist

Electronic assistance to achieve the perfect drift angle!

1146 FIREBOLT 15T MOTOR (540 TYPE)

1136 SATURN 20T MOTOR (540 TYPE)

HPI Racing Titanium Drift Springs are specially tuned for drifting. They're softer than steel springs for more weight transfer. And, the high tech titanium construction is lighter than steel springs and is the latest spring technology that is being used on real drift cars. Get the complete set and be fully equipped for any track conditions!

- 86951 Pro Silicone Shock Oil 10wt (60cc)
- 86953 Pro Silicone Shock Oil 20wt (60cc)
- 86955 Pro Silicone Shock Oil 30wt (60cc)
- 86957 Pro Silicone Shock Oil 40wt (60cc)
- 86959 Pro Silicone Shock Oil 50wt (60cc)

High quality 100% pure silicone shock oil resists the effects of temperature changes better than petroleum based oils, the benefit for racers is more consistent shock dampening throughout the day. Packaged in convenient 60cc bottles and clearly marked weights for easy identification in your pit box. Perfect for most oil filled RC shocks.

4738 Mounted T-GRIP Tire 26mm  
Rays 57s-pro Wheel Chrome

Bolt a set of long-wearing HPI T-Grip tyres on your touring or street car for instant great looks and loads of fun!

4739 T-DRIFT Tire 26mm  
Rays 57s-pro Wheel Chrome

Get sideways fast with HPI T-Drift tyres mounted on replica Rays 57s-Pro chrome wheels! Drifting is all about fun and style, and the easiest way to get into the drift spirit is by bolting on a set of pre-mounted HPI T-Drift tyres. This combination of wheels and tyres are standard on the easy to drive E10 Drift.

4405 T-grip Tire 26mm

A treaded rubber tyre for easy street driving and long life.

4704 Mounted Super Drift Tire (A Type)  
TE37 Wheel Chrome

To make it more convenient for you the #4704 Mounted Super Drift Tyre consists of #4402 Super Drift Tyres pre-assembled on the #3842 TE37 Chrome Wheels. They are complete with inner foam, mounted and glued for direct and easy replacement.

4406 T-drift Tire 26mm

A slick plastic-type drifting tyre for easy sideways action and long tyre life!

4402 Super Drift Tire 26mm Radial

These treaded Super Drift Tyres will give your drift car a cool realistic look. They are moulded from hard compound rubber that has been developed purely for drifting.

85613 Body Tuner Kit Type A  
Add some bling to make your car stand out from the crowd with the HPI Body Tuner Kit. You get a large diameter chrome muffler, a realistic front intercooler, and 3 different kinds of side view mirrors.
