

CUP RACER

TRUE SCALE, TRUE LOOKS, TRUE ENGINEERING.

The Cup Racer combines amazing features and racing spec in true-to-scale one-tenth size, in what we call 'True Ten' design! With the HPI True Ten performance chassis, you have the opportunity to experience the joy of owning a super-realistic representation of some of the most legendary sports cars ever made.

TRUCKS, TRUCKS OR ANY SURFACE

KIT VERSION

Oil filled shocks

Fully adjustable suspension
Adjustable front king pin
positions for stable
handling.

Full-time Shaft Drive 4WD System
includes a lightweight aluminum
Center Shaft for high efficiency
and direct response.

STAND-UP SHOCKS

LAY-DOWN SHOCKS

The front shock fitting can also be changed to a more standard upright shock setting, or a laydown configuration to help fit low-profile bodyshells.

The Cup Racer wheelbase is selectable between 210mm and 225mm. Adjustability allows a wide variety of realistic car bodies. Most mini-size bodies will fit on the Cup Racer.
