CYBER 10B

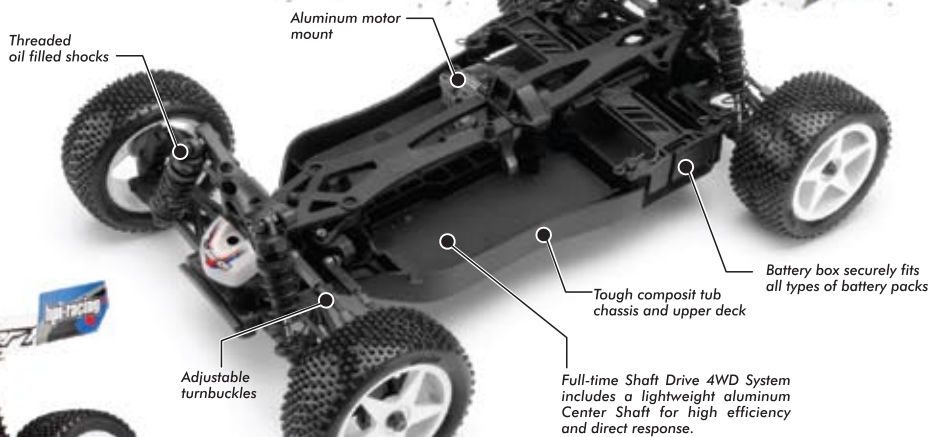

WORLD CLASS PERFORMANCE

The Cyber 10B is an all-new chassis that combines proven racing performance with a low kit price. You get the know-how of decades of racing experience from the Hot Bodies racing team, proven World Championship racing design from the Hot Bodies D4 and loads of off-road fun in a convenient build-it-yourself kit at a price much lower than any top racing kit!

The Cyber 10B draws from the vast experience of the premiere Hot Bodies racing team to produce a sport-level electric 4WD off-road racing kit that is unparalleled in performance, ability, spec and potential! With the Cyber 10B at your control, you'll have total confidence on the track!
