

# Baja 5T

Gasoline 2WD

**FUELIE 26CC ENGINE**  
More power, more torque and more speed than 23cc engines.

**HIGH FLOW MUFFLER**  
Give the Baja 5T the power to launch with a roost of desert dirt on the way to a screaming top speed!

BAJA 5T

## AGGRESSIVE OFFROAD ACTION!

**8000 RPM CLUTCH**  
Launches the Baja 5T at higher RPM for more punch off the line.

**DURABLE CHASSIS**  
Black anodized 4mm 6061-T6 aircraft grade extruded and CNC milled chassis.

**HIGH QUALITY ELECTRONICS**  
The Baja 5T comes ready-to-run with a high quality 3-channel FM radio with excellent range, a high torque metal-gear steering servo, failsafe equipped receiver, throttle servo and a 3000 mAh rechargeable Ni-MH receiver battery pack. The critical electronics are enclosed in a water resistant compartment to shield them from the elements.

The Baja 5T is a ready-to-run (RTR) 1/5th scale off-road truck that expands on the award-winning Baja 5B family. With the Baja 5T you get aggressive desert truck looks, high performance new features, and compatibility with many of the existing Baja 5B spare parts and option parts, wrapped up in a RTR package that gets you running in just a few minutes. Power comes from a massive 26cc gasoline engine, delivering rock solid performance, easy tuning and run times of more than 30 minutes on a single tank. The high performance 8,000 RPM clutch and new high flow muffler give the Baja 5T the power to launch with a roost of desert dirt on the way to a screaming top speed of more than 40 MPH! So get ready to take on the desert with the giant 1/5th scale Baja 5T truck. It's got the look, it's got the power, and it's built tough to take the punishment of off-road action.
