

# BRAMA 10B

ELECTRIC **RTR** Ready To Run! 2WD

BRAMA 10B

## SHAFT DRIVE 4WD

Tough and durable, shaft drive is the perfect choice for fun and wild off-road action. It's sealed against debris like rocks and pebbles and can take the power of high-strength motors.

## DURABLE, OVERSIZED DIFF OUTDRIVES

Strong and thick diff outdrives help make sure that you won't have any issues with the drivetrain transmitting power to the dogbones and wheels.

# OFFROAD ACTION ANYWHERE!

## HIGH QUALITY RADIO GEAR

Reliable HPI radio gear included.

## READY TO GO!

The Brama 10B is factory assembled with a painted body right out of the box!

#10791 - RTR BRAMA 10B WITH E10 BUGGY BODY

Based on the always-tough E10 chassis, the Brama 10B is ready for some serious off-road action! It was designed from the ground up to be tough, and it has full-time 4WD for maximum traction, long suspension arms and oil-filled shocks for great handling, plus a sweet buggy body and a massive rear wing for cool custom looks. With a sealed shaft drivetrain and pinion/spur combo, you won't have to deal with rocks or anything else getting stuck and slowing you down! You can keep the hammer down and power out of any trouble you might get yourself into. The spiked tires front and rear will just keep going and going, biting and clawing through dirt, grass or mud! Completely pre-built and painted, the Brama 10B is fitted with reliable HPI radio gear and a powerful motor to get you up to speed in a hurry. Just pop some AA batteries in the transmitter and you'll be getting airborne and dirty in no time! The Brama 10B the perfect choice for anyone who just wants to get off-road - fast!
