SPRINT 2 FLUX

## BRUSHLESS POWERED ELECTRIC TOURING

Unleash the all-wheel-drive beast, the ready-to-run Sprint 2 Flux brushless 1/10th scale 4WD touring car is here! The Flux Brushless System takes the durable Sprint 2 platform to the next level with amazing performance from brushless motor technology. The Sprint 2 Flux is our most reliable onroad chassis - the workhorse of the HPI touring car line-up, built with indisputable HPI durability. From the first Sprint, released in 2002, to the new Sprint 2 Flux brushless version, we've improved the durability, handling, power and speed while keeping the car fun. The Sprint 2 Flux is FAST, fun and durable, with numerous option parts you can bolt on, so you know you're getting a vehicle that is supported by a company that backs its products 100%.
