**⚠ NOTICE:****Meaning of Special Language**

The following terms are used throughout the product literature to indicate various levels of potential harm when operating this product:

**NOTICE:** Procedures, which if not properly followed, create a possibility of physical property damage AND little or no possibility of injury.

**CAUTION:** Procedures, which if not properly followed, create the probability of physical property damage AND a possibility of serious injury.

**WARNING:** Procedures, which if not properly followed, create the probability of property damage, collateral damage, and serious injury OR create a high probability of superficial injury.

**⚠ WARNING:**

Read the ENTIRE instruction manual to become familiar with the features of the product before operating. Failure to operate the product correctly can result in damage to the product, personal property and cause serious injury.

This is a sophisticated hobby product and NOT a toy. It must be operated with caution and common sense and requires some basic mechanical ability. Failure to operate this Product in a safe and responsible manner could result in injury or damage to the product or other property. This product is not intended for use by children without direct adult supervision. Do not use with incompatible components or alter this product in any way outside of the instructions. This manual contains instructions for safety, operation and maintenance. It is essential to read and follow all the instructions and warnings in the manual, prior to assembly, setup or use, in order to operate correctly and avoid damage or serious injury.

**⚠ HINWEIS:****ERKLÄRUNG DER BEGRIFFE:**

Begriffe werden in der gesamten Produktliteratur verwendet, um auf unterschiedlich hohe Gefahrenrisiken beim Betrieb dieses Produkts hinzuweisen:

**HINWEIS:** Wenn diese Verfahren nicht korrekt befolgt werden, können sich möglicherweise Sachschäden UND geringe oder keine Gefahr von Verletzungen ergeben.

**ACHTUNG:** Wenn diese Verfahren nicht korrekt befolgt werden, ergeben sich wahrscheinlich Sachschäden UND die Gefahr von schweren Verletzungen.

**WARNING:** Wenn diese Verfahren nicht korrekt befolgt werden, ergeben sich wahrscheinlich Sachschäden, Kollateralschäden und schwere Verletzungen ODER mit hoher Wahrscheinlichkeit oberflächliche Verletzungen.

**⚠ WARNING:**

Lesen Sie die GESAMTE Bedienungsanleitung, um sich vor dem Betrieb mit den Produktfunktionen vertraut zu machen. Wird das Produkt nicht korrekt betrieben, kann dies zu Schäden am Produkt oder persönlichem Eigentum führen oder schwere Verletzungen verursachen. Dies ist ein hochentwickeltes Hobby-Produkt. Es muss mit Vorsicht und gesundem Menschenverstand betrieben werden und benötigt gewisse mechanische Grundfähigkeiten. Wird dieses Produkt nicht auf eine sichere und verantwortungsvolle Weise betrieben, kann dies zu Verletzungen oder Schäden am Produkt oder anderen Sachwerten führen. Versuchen Sie nicht ohne Genehmigung, das Produkt zu zerlegen, es mit inkompatiblen Komponenten zu verwenden oder auf jegliche Weise zu erweitern. Diese Bedienungsanleitung enthält Anweisungen für Sicherheit, Betrieb und Wartung. Es ist unbedingt notwendig, vor Zusammenbau, Einrichtung oder Verwendung alle Anweisungen und Warnhinweise im Handbuch zu lesen und zu befolgen, damit es bestimmungsgemäß betrieben werden kann und Schäden oder schwere Verletzungen vermieden werden.

**⚠ Remarque:****Signification de cert ains termes spécifiques:**

Les termes suivants servent, tout au long de la littérature produits, à désigner différents niveaux de blessures potentielles lors de l'utilisation de ce produit:

**REMARQUE:** procédures qui, si elles ne sont pas suivies correctement, peuvent entraîner des dégâts matériels ET éventuellement un faible risque de blessures.

**ATTENTION:** procédures qui, si elles ne sont pas suivies correctement, peuvent entraîner des dégâts matériels ET des blessures graves.

**AVERTISSEMENT:** procédures qui, si elles ne sont pas suivies correctement, peuvent entraîner des dégâts matériels, des dommages collatéraux et des blessures graves OU engendrer une probabilité élevée de blessure superficielle.

**⚠ AVERTISSEMENT :**

Lisez la TOTALITE du manuel d'utilisation afin de vous familiariser avec les caractéristiques du produit avant de le faire fonctionner. Une utilisation incorrecte du produit peut avoir comme résultat un endommagement du produit lui-même, celui de propriétés personnelles voire entraîner des blessures graves.

Ceci est un produit de loisirs perfectionné et NON PAS un jouet. Il doit être manipulé avec prudence et bon sens et requiert quelques aptitudes de base à la mécanique. L'incapacité à manipuler ce produit de manière sûre et responsable peut provoquer des blessures ou des dommages au produit ou à d'autres biens. Ce produit n'est pas destiné à être utilisé par des enfants sans la surveillance directe d'un adulte. Ne pas essayer de désassembler le produit, de l'utiliser avec des composants incompatibles ou d'en améliorer les performances sans l'approbation. Ce manuel comporte des instructions de sécurité, d'utilisation et d'entretien. Il est capital de lire et de respecter toutes les instructions et avertissements du manuel avant l'assemblage, le réglage ou l'utilisation afin de le manipuler correctement et d'éviter les dommages ou les blessures graves.

**EN****Age Recommendation: Not for children under 14 years. This is not a toy.****Safety Precautions and Warnings**

As the user of this product, you are solely responsible for operating in a manner that does not endanger yourself and others or result in damage to the product or property of others. This model is controlled by a radio signal subject to interference from many sources outside your control. This interference can cause momentary loss of control, so it is advisable to always keep a safe distance in all directions around your model as this margin will help avoid collisions or injury.

- Never operate your model with low transmitter batteries.
- Always operate your model in open spaces away from full-size vehicles, traffic and people.
- Never operate the model in the street or in populated areas for any reason.
- Carefully follow the directions and warnings for this and any optional support equipment (chargers, rechargeable battery packs, etc.) you use.

- Keep all chemicals, small parts and anything electrical out of the reach of children.
- Never lick or place any portion of the model in your mouth as it could cause serious injury or even death.
- Exercise caution when using tools and sharp instruments. a
- Take care during maintenance as some parts may have sharp edges.
- Immediately after using your model, do NOT touch equipment such as the motor and battery, because they generate high temperatures. You may burn yourself seriously touching them.
- Do not put fingers or any objects inside rotating and moving parts, as this may cause damage or serious injury.
- Always turn on your transmitter before you turn on the receiver in the car. Always turn off the receiver before turning your transmitter off.
- Keep the wheels of the model off the ground when checking the operation of the radio equipment.

**FR****Recommandation d'âge: pas pour les enfants de moins de 14 ans. Ce n'est pas un jouet.****Précautions de sécurité et avertissements**

En tant qu'utilisateur de ce produit, vous êtes seul responsable du fonctionnement de manière à ne pas vous mettre en danger, vous-même et des tiers, et à ne pas endommager le produit ou la propriété d'autrui. Ce modèle est contrôlé par un signal radio sujet aux interférences de nombreuses sources indépendantes de votre volonté. Cette interférence peut entraîner une perte de contrôle momentanée. Il est donc conseillé de toujours garder une distance de sécurité dans toutes les directions autour de votre modèle, car cette marge aidera à éviter les collisions ou les blessures.

- Ne faites jamais fonctionner votre modèle avec des piles à faible émetteur.
- Utilisez toujours votre modèle dans des espaces ouverts, loin des véhicules, de la circulation et des personnes.
- N'utilisez jamais le modèle dans la rue ou dans des zones peuplées pour quelque raison que ce soit.
- Suivez attentivement les instructions et les avertissements relatifs à cela et à tout équipement de support en option (chargeurs, blocs-piles rechargeables, etc.) que vous utilisez.

- Gardez tous les produits chimiques, les petites pièces et tout objet électrique hors de la portée des enfants.
- Ne léchez et ne placez jamais une partie du modèle dans la bouche car cela pourrait provoquer des blessures graves, voire mortelles.
- Soyez prudent lorsque vous utilisez des outils et des instruments tranchants. a
- Faites attention pendant l'entretien car certaines pièces peuvent avoir des bords tranchants.
- Immédiatement après avoir utilisé votre modèle, NE touchez PAS à des équipements tels que le moteur et la batterie, car ils génèrent des températures élevées. Vous pouvez vous brûler sérieusement en les touchant.
- Ne placez pas vos doigts ou des objets à l'intérieur de pièces en rotation ou en mouvement, car cela pourrait causer des dommages ou des blessures graves.
- Allumez toujours votre émetteur avant d'allumer le récepteur dans la voiture. Eteignez toujours le récepteur avant d'éteindre votre émetteur.
- Gardez les roues du modèle au sol lorsque vous vérifiez le fonctionnement de l'équipement radio.

**DE****Altersempfehlung: Nicht für Kinder unter 14 Jahren. Das ist kein Spielzeug.****Sicherheitsvorkehrungen und Warnungen**

Als Benutzer dieses Produkts sind Sie allein dafür verantwortlich, auf eine Weise das Auto zu betreiben, die zu sich selbst oder andere nicht gefährdet oder an privat genutzten Gegenständen nicht schadet. Das Modell wird von dem Funksignal gesteuert, das von vielen Quellen außerhalb Ihrer Kontrolle gestört werden könnte. Diese Störung könnte zum vorübergehenden Verlust der Kontrolle führen. Deshalb vorschlagen wir Ihnen, dass Ihr Modell sich durch Einhalten eines Sicherheitsabstandes zum Gegenstand und Bauwerk Zusammenstoß und Schaden vermeiden lässt.

- Das Modell darf nur mit vollgeladenen oder neuen Batterien betrieben werden.
- Betreiben Sie das Modell am besten nur in offenem Räumen, indem es fern von Fahrzeugen, Verkehr und Personen ist.
- Betreiben Sie das Modell niemals auf der Straße oder in dicht besiedelten Gebieten.
- Befolgen Sie die Anweisungen und Warnungen über alle optionalen Hilfsmittel (Ladegeräte, Akkus usw.).

- Halten Sie alle Chemikalien, Kleinteile und elektrischen Geräte von Kindern fern.

- Seien Sie vorsichtig beim Umgang mit Werkzeugen und scharfen Instrumenten.
- Seien Sie vorsichtig bei Wahrung wegen scharfen Kanten einiger Teil.
- Berühren Sie nicht unmittelbar nach dem Gebrauch Ihres Modells Geräte wie Motor und Akku, da diese hohe Temperaturen erzeugen. Sie können sich verbrennen, wenn Sie sie berühren.
- Greifen Sie niemals in drehenden Antrieben oder Teilen! Finger können schwer verletzt werden!
- Schalten Sie immer die Fernbedienung ein, bevor Sie Ihr Autoeinschalten. Schalten Sie das Auto immer aus, bevor Sie die Fernbedienung ausschalten.
- Halten Sie die Räder des Modells vom Boden fern, wenn Sie den Betrieb des Autos überprüfen.

**ES****Recomendación de edad: No para niños menores de 14 años. Esto no es un juguete.****Precauciones de seguridad y advertencias**

Como usuario de este producto, usted es el único responsable de operar de una manera que no ponga en peligro a usted ni a los demás, ni a dañar el producto o la propiedad de otros. Este modelo está controlado por una señal de radio sujeta a la interferencia de muchas fuentes fuera de su control. This interference can cause momentary loss of control, so it is advisable to always keep a safe distance in all directions around your model as this margin will help avoid collisions or injury.

- Nunca opere su modelo con pilas de bajo transmisor.
- Opere siempre su modelo en espacios abiertos alejados de vehículos de tamaño completo, tráfico y personas.
- Nunca opere el modelo en la calle o en áreas pobladas por ningún motivo.
- Siga cuidadosamente las instrucciones y advertencias para este y cualquier equipo de soporte opcional (cargadores, paquetes de baterías recargables, etc.) que utilice.

- Mantenga todos los productos químicos, piezas pequeñas y cualquier cosa eléctrica fuera del alcance de los niños.
- Nunca lama o coloque ninguna parte del modelo en su boca, ya que podría causar lesiones graves o incluso la muerte.
- Tenga cuidado al usar herramientas e instrumentos afilados.
- Tenga cuidado durante el mantenimiento, ya que algunas piezas pueden tener bordes afilados.
- Inmediatamente después de usar su modelo, NO toque equipos como el motor y la batería, ya que generan altas temperaturas. Puedes quemarte seriamente tocándolos.
- No coloque los dedos ni ningún objeto dentro de las piezas giratorias y móviles, ya que esto podría causar daños o lesiones graves.
- Encienda siempre su receptor en su automóvil antes de encender el transmisor. Siempre apague el transmisor antes de apagar su receptor.
- Mantenga las ruedas del modelo fuera del suelo cuando compruebe el funcionamiento del equipo de radio.

**IT****Età raccomandata: Non adatto per bambini di età inferiore a 14 anni. Questo non è un giocattolo.****Precauzioni e Avvertenze Sicurezza**

Come utilizzatore di questo prodotto, sei responsabile del funzionamento in modo da non mettere in pericolo te e gli altri o causare danni al prodotto o alla proprietà degli altri. - Non infilare dita o altri oggetti all'interno o intorno, altrimenti si potrebbero causare danni o lesioni gravi.
- Accendere sempre il trasmettitore prima di accendere il ricevitore della macchina. Spegnerne sempre il ricevitore prima di spegnere il trasmettitore.
- Tenere le ruote sollevate da terra quando si controlla il funzionamento dell'apparecchiatura radio.

## WATER-RESISTANT VEHICLE WITH WATERPROOF ELECTRONICS

Your new vehicle has been designed and built with a combination of waterproof and water-resistant components to allow you to operate the product in many "wet conditions," including puddles, creeks, wet grass, snow and even rain.

The vehicle has the IPX5 waterproof level.

While the entire vehicle is highly water-resistant, it is not completely waterproof and your vehicle should NOT be treated like a submarine. The IPX5 waterproof level only protects the vehicle itself from splashing water and waves. The various electronic components used in the vehicle, such as the servo(s) are waterproof, however, most of the mechanical components are water-resistant and should not be submerged.

Metal parts, including the bearings, hinge pins, screws and nuts, as well as the contacts in the electrical cables, will be susceptible to corrosion if additional maintenance is not performed after running in wet conditions.

To maximize the long-term performance of your vehicle and to keep the warranty intact, the procedures described in the "Wet Conditions Maintenance" section below must be performed regularly if you choose to run in wet conditions. If you are not willing to perform the additional care and maintenance required, then you should not operate the vehicle in those conditions.

**⚠ CAUTION:** Failure to exercise caution while using this product and complying with the following precautions could result in product malfunction and/or void the warranty.

### General Precautions

- Read through the wet conditions maintenance procedures and make sure that you have all the tools you will need to properly maintain your vehicle.
- Not all batteries can be used in wet conditions. Consult the battery manufacturer before use. Do not use Li-ion batteries in wet conditions.
- The included transmitter is not waterproof or water-resistant. If using a different transmitter than the one included, consult your transmitter's manual or the manufacturer before operation.
- Never operate your transmitter or vehicle where lightning may be present.

**High Waterproof Level**  
The IPX5 waterproof level protect itself form splashing water and waves

- Do not operate your vehicle where it could come in contact with salt water (ocean water or water on salt-covered roads), contaminated or polluted water. Salt water is very conductive and highly corrosive, so use caution.
- Even minimal water contact can reduce the life of your motor if it has not been certified as water-resistant or waterproof. If the motor becomes excessively wet, apply very light throttle until the water is mostly removed from the motor. Running a wet motor at high speeds may rapidly damage the motor.
- Driving in wet conditions can reduce the life of the motor. The additional resistance of operating in water causes excess strain. Alter the gear ratio by using a smaller pinion or larger spur gear. This will increase torque (and motor life) when running in mud, deeper puddles, or any wet conditions that will increase the load on the motor for an extended period of time.

### Wet Conditions Maintenance

- Remove the battery pack(s) and dry the contacts. If you have an air compressor or a can of compressed air, blow out any water that may be inside the recessed connector housing.
- Remove the tires/wheels from the vehicle and gently rinse the mud and dirt off with a garden hose. Avoid rinsing the bearings and transmission.

**NOTICE:** Never use a pressure washer to clean your vehicle.

- Use an air compressor or a can of compressed air to dry the vehicle and help remove any water that may have gotten into small crevices or corners.
- Spray the bearings, drive train, fasteners and other metal parts with WD-40 solvent or any other water-displacing light oil. Do not spray the motor.
- Let the vehicle air dry before you store it. Water (and oil) may continue to drip for a few hours.
- Increase the frequency of disassembly, inspection and lubrication of the following:
  - Front and rear axle hub assembly bearings.
  - All transmission cases, gears and differentials.
  - Motor—clean with an aerosol motor cleaner and re-oil the bushings with lightweight motor oil.

**WARNING:** Make sure the battery in full dry condition when you connect it to the charger! If any water on plug, there is danger of explosion!

Please connect to the charger after drying the battery surface and battery joint.

When charging the battery, PLEASE DO MAKE SURE the plug of the battery and your hands both are in dry condition. If any water on plug, there is danger of explosion!

## Precautions

- (1) CHOKING HAZARD - Small parts. Keep out of reach of small children.
- (2) Please operate in an open field without any wave interference.
- (3) When transmitter is low in power, please stop and change batteries immediately.
- (4) Please store the car and the transmitter in a dry and cool environment.
- (5) Keep away from fire, hot or humid environment.
- (6) If car battery is wet, be sure to wipe and dry it completely to avoid any damage.

## 1. PACKAGE CONTAINS:

2.4G Transmitter

USB Charging Cable

Lithium-ion  
Battery Pack

Pin X 4

Phillips Screwdriver

Hex Wrench

Steering wheel

Transmission Gears

### FOR TRANSMITTER

Not included

2 x 1.5 V AA type

### Manual

FOR FULL PERFORMANCE, USE APPROVED BATTERY TYPES

## 2. REMOVE THE TRUCK BODY

Pull out the pins and remove the body

Make sure all accessories are properly attached, remove the protection film from the body before turning on

## 3. INSTALL TRANSMITTER BATTERIES

1. Remove the battery cover by loosening the screw on the back of the transmitter with the included screwdriver. (Figure 1)
2. Install 2 x 1.5V AA batteries (not included) in correct polarities. (Figure 2)
3. Close the battery cover and tighten the screw. (Figure 3)

### ⚠ NOTICE:

1. Never mix different types of batteries.
2. Never mix the new batteries with old ones.
3. Always remove exhausted batteries.
4. Always keep batteries out of reach of the children.
5. Philips screwdriver is for loosening and installing the battery cover. Never use to disassembling the truck body. Or may damage the screwdriver.

(Figure1)

(Figure2)

(Figure3)

## 4. CHARGE AND INSTALL RECHARGEABLE BATTERY PACK

- (1). Insert the USB charging cable into the USB interface, note the indicator light turns green. Connect the lithium-ion battery pack to the USB charging cable, note the indicator light turns solid red. Indicator light will turn green once charging process is complete.  
\* The USB charging cable comes with detecting battery function. When a good battery is charging, three indicator lights on the charging cable turn solid red. When the battery is damaged or dead, three indicator lights turn flashing red.
- (2). Loosen the latches of the battery cover then remove it, note the battery compartment lies on the chassis.

### USB Charger Precautions

#### ⚠ CAUTION

The USB charger does not apply input current bigger than 4A. When over 4A, it will start-up protection mode, all the lights will turn off.

- (3). Connect the battery pack to the vehicle in correct polarity. Then put the battery into the battery compartment.

Power Light

Power Switch

- (4). Close the battery cover, tighten the latches.

## 5. CHARGER AND BATTERY PACK PRECAUTIONS

1. Always connect the battery in correct polarity. See as below:

2. Do not charge the battery overnight.

3. Always switch off the car and transmitter and remove the battery when not in use. Do not over-discharge the battery.

4. Never leave the battery and charger unattended. Keep away from fire to avoid explosion and injury.

**ST Trim:** Adjusts the steering without steering wheel input to make the vehicle track straight.

When the truck is turning left, steering trim should be adjusted clockwise.

When the truck is turning right, steering trim should be adjusted anticlockwise.

## 7. CONTROLLING THE VEHICLE

### 1 TURN ON YOUR VEHICLE

Lift up the cover

**EN** Remove the battery compartment cover, turn on your vehicle, and then close the cover.

**FR** Retirez le couvercle du compartiment de la batterie, allumez votre véhicule, puis fermez le couvercle.

**DE** Entfernen Sie den Batteriedeckel, schalten Sie das Auto ein und schließen Sie den Deckel.

**ES** Retire la tapa del compartimento de la batería, encienda su vehículo y luego cierre la tapa.

**IT** Rimuovere il coperchio per la batteria, accendere il veicolo, infine chiudere il coperchio.

### 2 TURN ON THE TRANSMITTER

**EN** Place the steering wheel on the transmitter. Turn on the transmitter. Your vehicle is bound with your transmitter automatically.

**FR** Placez le volant sur l'émetteur. Allumez l'émetteur. Votre véhicule est automatiquement lié à votre émetteur.

**DE** Bauen Sie das Lenkrad in die Fernbedienung ein. Schalten Sie die Fernbedienung ein. Das Fahrzeug wird automatisch mit der Fernbedienung verbunden.

**ES** Coloque el volante en el transmisor. Encienda el transmisor. Su vehículo está vinculado con su transmisor automáticamente.

**IT** Piazzare lo sterzo sul trasmettitore. Accendere il trasmettitore. Il tuo veicolo si collegherà automaticamente al trasmettitore.

**EN Notice:**

- During the binding, the indicator lights on the vehicle and the transmitter will flash. Lights will turn solid red once binding is completed. Binding process can be completed within 3 seconds.
- NEVER touch the throttle during the binding, or may lead to the malfunction of the vehicle.
- Please turn off the vehicle and transmitter and repeat the binding process again if it is not successful.

**FR Remarquer:**

- Pendant la reliure, les voyants du véhicule et l'émetteur clignotent. Les lumières deviennent rouge une fois la liaison terminée. Le processus de reliure peut être terminé en 3 secondes.
- Ne touchez JAMAIS pas les gaz pendant la fixation, car cela pourrait entraîner un dysfonctionnement du véhicule.
- Éteignez le véhicule et l'émetteur et répétez la procédure de reliure si elle échoue.

**DE**

- Bei der Verbindung blinken die Kontrollleuchten am Fahrzeug und an Fernbedienung. Sobald der Verbindung abgeschlossen ist, blinken die Kontrollleuchten nicht und sind durchgehend rot. Diese Verbindung wird innerhalb 3 Sekunden abgeschlossen.
- Berühren Sie NICHT bei der Verbindung das Gaspedal, da dies zu einer Fehlfunktion des Fahrzeugs führen kann.
- Wenn die Verbindung nicht erfolgreich ist, schalten Sie das Fahrzeug und die Fernbedienung aus und wiederholen Sie diese Verbindung.

**ES Aviso:**

- Durante la unión, el indicador se ilumina en el vehículo y el transmisor parpadeará. Las luces se volverán de color rojo sólido una vez que se complete la encuadernación. El proceso de enlace se puede completar en 3 segundos.
- NUNCA toque el acelerador durante el atascamiento, o puede provocar el mal funcionamiento del vehículo.
- Apague el vehículo y el transmisor y repita el proceso de enlace nuevamente si no tiene éxito.

**IT Attenzione:**

- Durante il collegamento, le luci degli indicatori sul veicolo e del trasmettitore si accenderanno. Le luci diventeranno solidamente rosse una volta che il collegamento sarà avvenuto. Il processo di collegamento si dovrebbe completare entro 3 secondi.
- Non toccare mai l'acceleratore durante il collegamento, o potresti causare il malfunzionamento del veicolo.
- Si prega di spegnere il veicolo e il trasmettitore e di ripetere il processo di collegamento una volta ancora se non dovesse funzionare la prima volta.

### 3 CHECK STEERING PERFORMANCE

## 9. RUNNING PRACTICE

- Please understand the buttons' functions on the equipment and controlling methods before running;
- Try to perform driving practice on the circular track as it is shown in the picture above.
- Keep practising until you can control the steer, throttle and brake at the low speed stably. After the circular track, you can start the "8"-shape track practice.
- When you master all the basic controlling ways, try to speed up and begin a more skillful training to enhance your controlling capabilities.

**NOTE:** Please run your vehicle at the low speed during the practicing to avoid crashing the vehicle.

## 10. OPERATION

1. ALWAYS turn on the vehicle first, then the transmitter. Always power off the transmitter before the vehicle.

2. ALWAYS operate your vehicle in a wide open area. Operating the vehicle on slippery floor or indoors may crash because of the high speed.

3. ALWAYS start with low speed, or the vehicle may slip or run on curves. (as shown on Pic 1 ) NEVER operate your vehicle in max speed. Operating the vehicle in highest speed may hurt yourself and damage your vehicle. If your vehicle is damaged, please visit: [support.g-p.hk](http://support.g-p.hk) to buy spare parts and replace correctly.

### MOTOR CARE

- Seat the motor brushes by driving smoothly on a flat surface during use of the first battery charge. Failing to do so can greatly reduce motor performance and functional life.
- Prolong motor life by preventing overheating conditions. Undue motor wear results from frequent turns, stops and starts, pushing objects, driving in deep water and tall grass, and driving continuously up hill.

**EN****90 Day Component Guarantee**

This product is covered by a 90 day component guarantee from date of purchase. If any part of the product fails as a result of faulty manufacture during this period then we will repair or replace that part at our discretion. We do not operate a new for old guarantee once the product has been used. Please note this product is not a toy and it is recommended that children 14 and under are supervised by an adult. It is the responsibility of the parent or guardian to ensure minors are given appropriate guidance and supervision. If you suspect there is a problem with the product, for whatever reason, it is the user's responsibility to investigate and take steps to rectify the problem before further damage occurs.

**Not Covered By Guarantee**

This is a sophisticated, high performance model and should be treated with care and respect. Every effort has been made to make this product as strong and durable as possible, however due to the nature of this product, it is still possible to break or damage parts through crashing or extreme use. Components damaged as a result of crash damage, improper use, lack of maintenance or abuse are not covered by the guarantee.

**How to Claim Against your Guarantee**

For guarantee claims please first contact your supplying retailer. Do not return the product to your distributor without their prior approval. You may not need to return the product in full, only the damaged component along with a copy of your purchase receipt. In many cases it is faster and more cost effective for the user to fit the replacement part(s) to the product & therefore we reserve the right to supply parts only in these instances.

Any returned component that is inspected by your distributor and found to have an invalid guarantee claim may be subject to an inspection and handling fee before it can be returned. Any repair is required as a result of neglect or misuse will be charged before any work is carried out on the product. If you decide not to have any work carried out the distributor reserves the right to charge a handling and a shipping fee.

Please attach your proof of purchase in the manual as you may need it again in the future.

**DE****90-Tage-Garantie auf Komponenten**

Für dieses Produkt gilt eine 90-Tage-Garantie auf Komponenten ab dem Kaufdatum. Wenn während dieser Zeit ein Teil des Produkts infolge Fabrikationsmängeln ausfallen sollte, liegt es in unserem Ermessen, ob wir das Teil reparieren oder austauschen.

Wenn das Produkt einmal benutzt wurde, bieten wir keine Neu-für-Alt-Garantie. Beachten Sie bitte, dass dieses Produkt kein Spielzeug ist und dass Kinder unter 14 Jahren von einem Erwachsenen beaufsichtigt werden sollten. Es liegt in der Verantwortung der Eltern oder Aufsichtspersonen, sicherzustellen, dass Minderjährige entsprechende Anleitung und Aufsicht erhalten.

Bei der Vermutung eines Problems mit dem Produkt, aus welchem Grunde auch immer, ist der Benutzer dafür verantwortlich, das Problem zu untersuchen und für Abhilfe zu sorgen, bevor weitere Schäden entstehen.

**Von der Garantie nicht gedeckt**

Dies ist ein technisch ausgereiftes Hochleistungs-Modell, das mit Sorgfalt und Respekt behandelt werden sollte. Wir haben zwar alles getan, um dieses Produkt so stabil und haltbar wie nur möglich zu machen, trotzdem können auf Grund der Natur dieses Produkts Teile bei Zusammenstößen oder extremem Einsatz beschädigt werden oder brechen. Komponenten, die durch einen Unfall, falsche Verwendung, mangelnde Wartung und Pflege oder Mißbrauch beschädigt wurden, fallen nicht unter die Garantie.

**Garantieansprüche geltend machen**

Mit Garantieansprüchen wenden Sie sich bitte zuerst an Ihren Händler. Ohne vorherige Genehmigung das Produkt nicht an den Distributor einschicken. Sie brauchen das Produkt nicht als Ganzes einschicken, nur die beschädigte Komponente zusammen mit einer Kopie des Kaufbelegs. In vielen Fällen ist es für Sie schneller und kostengünstiger, Ersatzteile in das Produkt einzubauen; daher behalten wir uns das Recht vor, nur in solchen Fällen die Ersatzteile zu liefern.

Für jede eingeschickte Komponente, bei deren Überprüfung Ihr Distributor einen ungültigen Garantieanspruch festgestellt hat, werden Ihnen vor der Rücksendung möglicherweise Prüfungs- und Bearbeitungskosten in Rechnung gestellt. Reparaturen, die als Folge von Nachlässigkeit oder Mißbrauch erforderlich sind, werden in Rechnung gestellt, bevor Arbeiten am Produkt durchgeführt werden. Wenn Sie sich entscheiden, dass keine Arbeiten ausgeführt werden sollen, hat der Distributor das Recht, Bearbeitungs- und Versandkosten in Rechnung zu stellen.

Sie sollten Ihren Kaufbeleg an dieses Handbuch anheften, für den Fall, dass Sie ihn später noch einmal benötigen.

**FR****Garantie du composant de 90 jours**

Ce produit est couvert par une garantie composant de 90 jours à partir de la date d'achat. Si, pendant cette période, l'une des pièces du produit a un défaut de fabrication, nous la réparerons ou la remplacerons à notre choix. Nous ne donnerons pas de nouvelle garantie pour une ancienne, une fois que le produit a été utilisé.

Veillez remarquer que ce produit n'est pas un jouet, et qu'il est recommandé d'avoir au moins de 14 ans et être sous la surveillance d'un adulte. Il est de la responsabilité des parents ou tuteur de garantir que les mineurs ont l'aide et la supervision nécessaires.

Si vous pensez qu'il existe, pour toute raison, un problème avec le produit, il est de la responsabilité de l'utilisateur de rechercher et de suivre les instructions afin de corriger le problème avant de causer de plus grands dommages.

**Non couvert par la garantie**

Ceci est un modèle sophistiqué et de haute performance qui devra être traité avec soin et respect. Tous les efforts ont été faits pour rendre ce produit aussi fort et durable que possible, toutefois, il est possible de casser ou d'endommager des pièces après un choc ou un usage extrême. Les composants endommagés suite à une collision, un usage incorrect, un manque d'entretien ou des mauvais traitements ne sont pas couverts par la garantie.

**Comment revendiquer votre garantie**

Pour les droits de garantie, veuillez prendre d'abord contact avec votre fournisseur. Ne renvoyez pas le produit à votre distributeur sans leur accord préalable. Vous n'avez pas à renvoyer le produit en entier, mais seulement le composant endommagé avec une copie de votre bon d'achat. Dans beaucoup de cas, il est plus rapide et rentable pour l'utilisateur de monter le(s) pièce(s) de rechange sur le produit et dans ce cas, nous nous réservons le droit de ne fournir des pièces que dans ce cas.

Tout composant retourné et inspecté par notre distributeur ne possédant pas une garantie valable, peut être sujet à des frais d'inspection et de manipulation avant sa réexpédition. Toutes les réparations nécessaires suite à une négligence ou mauvaise utilisation seront facturées avant le début de tout travail sur le produit. Si vous décidez de ne réaliser aucun travail, le distributeur se réserve le droit de facturer des frais de manipulation et d'expédition.

Veillez joindre votre preuve d'achat à ce manuel car vous pourrez en avoir besoin à l'avenir.

**ES****Garantía de 90 días para las piezas**

Este producto está cubierto por una garantía de 90 días en relación a las piezas a contar desde la fecha de compra. Si cualquier pieza del producto falla como resultado de una producción defectuosa durante este periodo, entonces, repararemos o sustituiremos esa pieza a nuestra discreción.

No aplicamos una garantía a valor de nuevo una vez que el producto ya ha sido usado.

Téngase en cuenta que este producto no es un juguete y se recomienda que los niños menores de 14 años sean supervisados por un adulto. Es responsabilidad de los padres o tutores el asegurarse de que los menores reciban orientación y supervisión adecuadas.

Si sospecha que su producto tiene un problema, por la razón que fuere, es responsabilidad del usuario el Investigarlo y dar los pasos oportunos para solucionar el problema antes de que se produzcan daños adicionales.

**No cubierto por la garantía**

Este es un modelo sofisticado y de alto rendimiento y deberá tratarse con cuidado y respeto. Nos hemos esforzado al máximo para hacer que este producto sea lo más fuerte y de mayor duración posible, sin embargo, debido a la naturaleza de este producto, es posible que se rompan o dañen piezas debido a choques o usos extremos. Los componentes dañados como resultado de daños por choques, uso indebido, falta de mantenimiento o mal uso no están cubiertos por la garantía.

**Cómo reclamar contra su garantía**

Para reclamaciones de garantía por favor contacte primero con su proveedor minorista. No devuelva el producto a su distribuidor sin su aprobación previa. Puede que no sea necesario que devuelva el producto al completo, únicamente el componente dañado junto con una copia de su recibo de compra. En muchos casos, es más rápido y más rentable para el usuario que monte la(s) pieza(s) de repuesto en el producto y por consiguiente nos reservamos el derecho a suministrar piezas únicamente en estos casos.

Cualquier componente devuelto que sea inspeccionado por su distribuidor y se descubra que existe una reclamación de garantía no válida podrá estar sujeto a una tasa por inspección y manipulación antes de ser devuelto. Cualesquiera reparaciones necesarias como resultado de negligencia o uso incorrecto serán cargadas antes de llevar a cabo cualquier trabajo en el producto. Si usted decide que no lleve a cabo ningún trabajo, el distribuidor se reserva el derecho a cargar una tasa por manipulación y envío.

Le rogamos que adjunte su prueba de compra al manual ya que podría necesitarla de nuevo en el futuro.

### FCC Compliance:

This device transmits within the range 2.4 to 2.485 GHz and has been tested to comply with the limits for a Part 15 Class B device of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. Any change or modification to the device not expressly approved by the manufacturer may void the user's authority to operate the equipment. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

### Canada Compliance Statement:

This Class B digital apparatus complies with Canadian ICES-003. (Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.) This equipment complies with the FCC/IC radiation exposure limits set forth for FCC and Industry Canada portable transmitting devices operation in an uncontrolled environment. The equipment should only be used or installed at locations where there is normally at least a 20cm separation between the antenna and all persons. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.
